

QUILCHENA DISC GOLF COURSE

The proposed disc golf course would be similar to the one on the southeast corner of Queen Elizabeth Park. This new nine hole course would be designed around the perimeter of Quilchena Park in the passive play areas. It would consist of nine targets.

TARGET SPECIFICATIONS

Chain Rack

Yellow powder-coated finish. 13 gauge steel, 22" diameter x 4" outer band. 5/16" steel rod frame. 4" x 1 15/16" I. D. tubing .156 wall, drilled and tapped collar. All joints welded. Decals affixed.

Chain

Hot-dip galvanized finish. 2/0 straight link coil chain. 18 strands.

Basket

Yellow powder-coated finish. 3/8" Steel rod, 5"x115/16" I. D. tubing .156 wall, drilled and tapped collar. All joints welded.

Pole

Hot-dip galvanized finish. 74" x17/8" O. D. galvanized steel pipe, .120 wall, drilled.

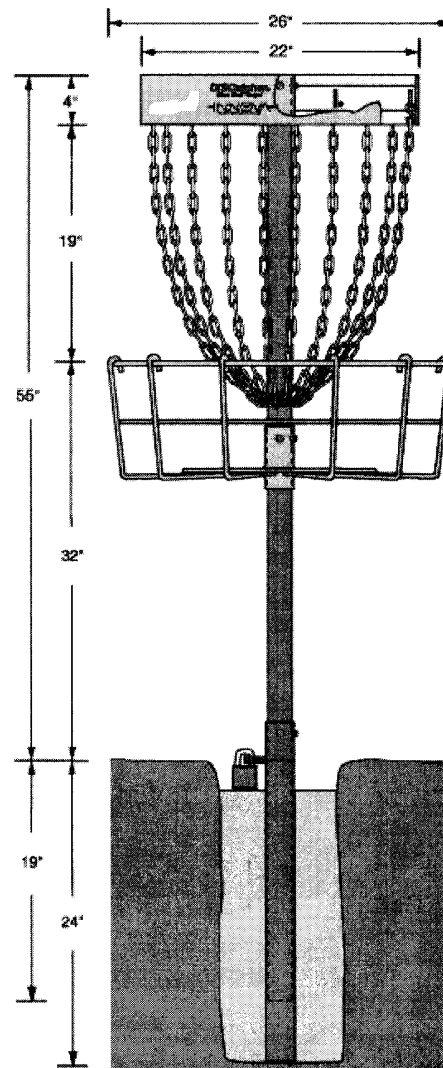

Collar

Hot-dip galvanized finish. 3"x115/16" I. D. tubing .095 wall, drilled and tapped.

Installation Tube

Hot-dip galvanized finish. 24"x 115/16" I. D. tubing .095 wall.

Note: Align padlock tab back toward the tee to have hole number decal face tee area. Recommend 60-80 lbs. of concrete for installation.

DISC GOLF COURSE LAYOUT

The disc golf course would consist of a nine hole course with tees and targets located as shown on the diagram.
