

Appendix 4:

## Guelph Park

## NEW PLAY EQUIPMENT FOR GUELPH PARK

A proposal has been made by the International Service Day Foundation to install new playground equipment in Guelph Park. This proposal, in cooperation with the Vancouver School Board and Vancouver Park Board, is a volunteer effort that involves replacing the existing play structure with new equipment. Because the playground is located on park property, it must be approved by the Park Board. The approval process involves canvassing residents to see if there is community support. If approved, the play structure will be installed in June.

Should you wish to comment on this proposal, please:
