# Development Permit and Parking Study

- Development Permit (DP) for Hillcrest Centre in 2006 states 920 parking stalls must be provided at the Hillcrest and Riley Parks
- 2013 Parking Study (Bunt & Associates) indicates 834 existing parking stalls are sufficient for day to day activities but require better management
- City of Vancouver Development Services indicates support for the study: a reduction of DP requirements is possible
- Remove 39 parking stalls at Riley Park and 50 parking stalls at the former VCC site to achieve greening goals
- 50 new stalls to be built where needed the most: at the Nat Bailey lot
- Proposed Total of 795 parking stalls (net reduction of 39 stalls)

### 3. Traffic and Parking Improvements

#### Opportunities:

- Better management of existing lots
- Parking restrictions
- One way circulation
- Improve gravel lot drainage
- Removing and adding stalls
- Connect to QE Park (200 stalls)
- Possible closure of Ontario St. (lead by CoV Active Transportation)
- Continue to designate portion of outfield lot for dogs off leash
