

EXPLANATION

Parks Control By-law Amendment Regarding Liquor Consumption in Parks – Schedule 2

Enactment of the attached By-law will update Schedule 2 of the Parks Control By-law, which identifies the parks and areas within those parks that have been designated as places where liquor may be consumed during the Alcohol in Parks Pilot (Liquor Consumption in Parks Pilot).

Updates to Schedule 2 include revisions to the following seven (7) pilot site maps:

- a) Granville Park - squared-off east boundary along playground buffer for clarity.
- b) Memorial South Park - adjusted northeast boundary to minimize disturbance to recently planted young trees in that area; added wildlife buffer around western edge of the pond.
- c) New Brighton Park - adjusted western boundary, south of off-leash dog area, to remove section that will be a restoration area; adjusted northeast boundary to discourage use of pathway leading to environmentally sensitive area (salt marsh).
- d) Pandora Park - updated map image to reflect recent park renewal features; adjusted eastern boundary to remove area used as programming space, which is also frequented by families with young children (by spray park).
- e) Robson Park - squared-off southwest boundary along playground buffer for clarity.
- f) Vanier Park - added a 5-metre buffer around edge of freshwater pond to minimize disturbance to this ecologically sensitive area.
- g) Volunteer Park - removed yellow park boundary from Tatlow Park as it is not part of the pilot.
