

GENERAL MANAGER'S REPORT

Regular Park Board Meeting
Monday, February 28, 2022

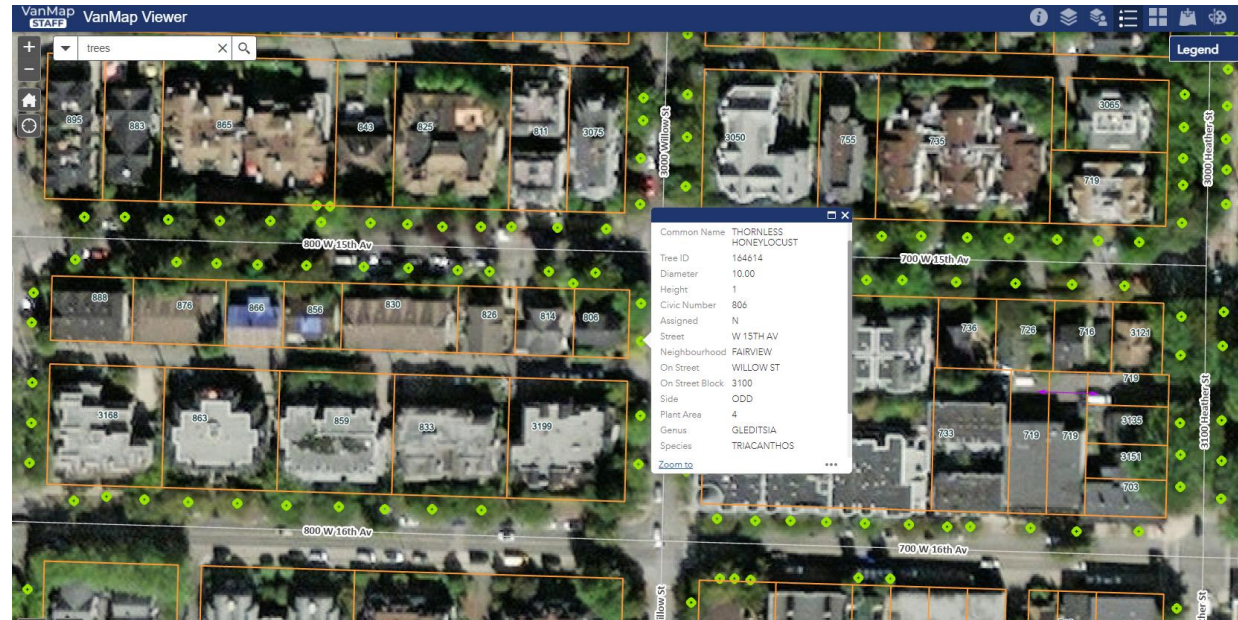

Barge Removal – Status Update

- Detailed project planning is underway including sequencing of barge debris removal and mitigation of impacts to seawall users and residents.
- Assessments (HAZMAT, environmental, habitat and structural) are underway.
- Communications and engagement plan is under development.
- MST engaged and archeological assessments to be planned.
- Deconstruction efforts anticipated to take 12-15 weeks to complete.

Urban Forestry – Tree Layer on VanMap

- 85% of the approximately 150,000 Street Trees are now accessible
- Staff anticipate to have all park trees in the system over the next 12-18 months
- Access to locations, species, height and more

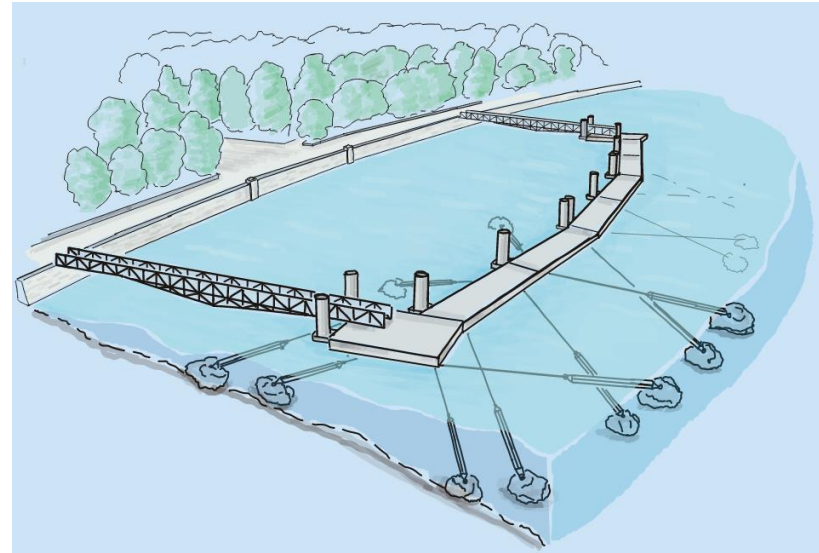

Canada Goose Management Plan

- Park Board staff have engaged a consultant to:
 - Gather info on impacts from staff, public reports
 - Evaluate population size and distribution
 - Conduct field studies in spring and summer 2022
- Continue egg addling, mitigate droppings and damage
- Address feeding, which leads to congregations of geese
- Anticipate finalized plan and report to Board in early 2023

Harbour Green Dock Renewal – Project Update

- Repairs prioritize restoration of the dock as a walkway and space for short-term recreational moorage, and increase the dock's resiliency to the conditions of the inner harbour.
- Contractor is on board and fabrication of parts has started off-site.
- Construction expected to begin on site in April 2022.
- Completion expected late May 2022.

Upcoming Council Business

- A report on Inventory of Parks, their Status under the Vancouver Charter and Recommended Public Park Designations
- A Council Member's Motion titled "Centering Community Facilities and Infrastructure in 2023-2026 Capital Plan"
- A report on Quarterly Capital Budget Adjustments and Closeouts
